

The Banshee Labyrinth – go there if you dare!

The pub owners are currently working with a ghost tour company just down the street and offer a “Ghost tour & Dine” package, however this needs to be booked in advance on their [website](#). But if you are brave enough to visit then you may just experience one of the resident ghosts. Terri Krueger the MArketing Manager told The Reporter:- “Glasses have been knocked off from tables, when no one has been near. The female staff when cleaning up, often report: a hand gently strokes their face.” Spooky! Let us know if you have any out of the ordinary experiences at this pub!
