

Edinburgh airport masterplan

✖ Just in case you have missed the planning scheduled for the airport..... You can read about it here. As the man on [Brian Taylor's Big Debate](#) today mentioned, Is it a pity that instead of a bus service to and from the city centre, or the proposed trams that a link to the nearest railway station was perhaps not considered, as they have at Luton Airport for example.

What use is the station at Edinburgh Park except for the hotel nearby? Do you use it? How busy do you think the trains there are? Do you think more could be made of the nearby railway lines surrounding the runways at the airport?

Click FULL SCREEN to get the best view. So it seems that the airport will perhaps not be as busy as was previously envisaged....and may not need as much land as it might have otherwise. What do you think of the report?
