

Tracy Griffen and her pop up shop

☒ Tracy Griffen is behind the pop up shop with a difference this Saturday.

The first ever [Balfour Street Bazaar](#) is for one day only and will showcase local artists, as well as offer a treasure trove of retro goodies and nick-nacks...

More specifically, there will be jewellery, second hand clothes, bric a brac, home baking, preserves, wee plants and 'I heart Leith' prints all for sale.

Pop in for a cup of herbal tea and you can even have a go at hula hooping! This is of course more the thing that Griffen is involved in. She is a personal trainer with her own way of doing things. Instead of keeping clients indoors, she takes them out cycling or running in the fresh Edinburgh air. You can learn more about it on her [website](#).
