

Edinburgh job – Process operator

We think this job sounds a bit more interesting than the title would first suggest!

It is based at the Agency for the Legal Deposit Libraries working from the National Library of Scotland at Causewayside, but appears to involve work with the Bodleian Library in Oxford and the library at Trinity College Dublin. The [job advert](#) explains what you would need to do :-

You will contribute to the receipting, processing, recording and distribution processes of materials within ALDL. Good team working skills, attention to detail, customer-focus and a strong desire to achieve consistently high standards are essential. Experience of working with electronic databases or recording systems is also essential. Familiarity with cataloguing standards and warehousing/book distribution or library systems would be an advantage.
