

Burst Water Mains across Edinburgh

Scottish Water has reported that there are a couple of burst water mains in the city today. Their recent tweet confirmed the provision of bottled water for some residents.

This is what they said [on their website](#) earlier:-

Edinburgh

Burst water main has been located at Bellenden Gardens in Edinburgh. Customers here may experience loss of water supply, low pressure, and discoloured water. A squad is on site to carry out the necessary repairs and will restore supplies as soon as possible.

Are you affected? Let us know how long your water has been off, and how it is affecting you.
