

Is this Edinburgh's Most Elite and High Tech Chauffeur Service?

✘ [Connoisseur Select Chauffeurs](#) (CSC) claim to be the most modern and elite way to travel around Edinburgh and Scotland. CSC have a wealth of USPs that they believe set them aside from their competitors, but the most truly unique difference has to be their super high-tech fleet of Mercedes.

The company now offer free Wi-Fi to passengers travelling in their cars, the only service of this type in the country at present, making them a must for business travellers moving from city to city. As well as being able to check your emails on the go, CSC also offers their elite [VIP Select Club card](#) with numerous luxury partners and excellent offers for club members. CSC is certainly breathing a fresh lease of life and modernity into an otherwise traditional service.

For added security, all CSC drivers are ex-policemen with advanced driving skills who exercise complete discretion on behalf of their VIP clients. The service not only offers bespoke tours all over Scotland, but also conveys TV and film crews throughout the country.

For modern luxury travel throughout Scotland, Connoisseur Select Chauffeurs say they are the one stop shop.
