

# Large Hadron Collider at Holyrood this week

*LARGE HADRON COLLIDER EXHIBITION from Saturday 2 February 2013 – Friday 8 February 2013*

The Scottish Parliament, Free Exhibition

A travelling exhibition showcasing the Large Hadron Collider (LHC), the world's largest science experiment will be on public display in the Main Hall of the Scottish Parliament.

Visitors can walk through a life size model of part of the LHC tunnel and learn more about science from the interactive exhibits. The exhibition will help create a sense of what it's like to be a particle physicist working on the largest science experiment of our generation.

Visitors will also have the opportunity to meet some of the UK's top LHC researchers and physics students who are working at the LHC and who will be available to answer questions and help to inspire the next generation of scientists.

For more information about the exhibition go to [www.stfc.ac.uk](http://www.stfc.ac.uk)

## Opening Hours

10am to 5pm (last entry 4.30pm) on Monday, Friday, and Saturday

9am to 6.30pm (last entry 6pm) Tuesday, Wednesday and Thursday

Closed Sunday
