

Edinburgh International Film Festival programme now available

The programme for this year's EIFF is as diverse as always, and the official trailer for it shows you a mere hint of what will be on offer from 19-30 June. There are 146 films with 30 premieres of varying classes, so far too many to take in without complete immersion in the brochure, either online [here](#) or available from The Filmhouse.

Tickets are on sale to Filmhouse members from this morning at 10:00am and to the general public from Monday 3 June 2013. The festival opens with *Breathe In* and closes with a film set in Scotland and starring Karen Gillan, *Not Another Happy Ending*.
