

Centipede Project carve scary pumpkins for Halloween

The Centipede Project in North Edinburgh held their pumpkin session in the community shop. It was declared a huge success by all involved – as the photos which they have kindly supplied to us show you what they were up to yesterday afternoon.

The group who run the shop Tenants and Residents in Muirhouse (TRIM) have recently been nominated for the Tenants Group of the Year award and they will find out in the middle of next month whether they have won.
