

Meeting room available

Meeting Room 2 at the Muirhouse Community Centre is available for short/long term lease.

The people in charge of the community centre have written to advise that they have availability for your group or business in their building.

At the Centre there are many advantages to leasing on a short or long term lease. We presently have one room available for any group/project looking to change or are considering creating a new Project as their base.

The facilities of the Centre would be accessible to the group/Project giving many advantages (as experienced by our other long term tenants).

This Room can be seen on our Website under rooms available.

(Meeting Room2) Please Contact Peter Airlie on 0131 467 3578 to discuss your future at this Centre
