

# Nespresso boutique open for sustainable coffee

The new Nespresso boutique is now well and truly open in Multrees Walk just off St Andrew Square so all you coffee aficionados will have somewhere to go and buy the latest in coffee making and coffee drinking equipment.

We were welcomed on Monday evening by Nespresso managing director Brema Drohnan, and were guided through a Nespresso inspired menu by its creator Michelin star chef Tom Kitchin. We were also invited to enjoy some delicious Nespresso cocktails developed by one of the capital's favourite cocktail bars, Amicus Apple and Charlotte who has worked for the brand on two continents explained to us how important recycling is to the company.

But truly the piece de resistance was the stunning couture dress made from recycled capsules for Nespresso by award-winning Scottish designer Judy R Clark.
