

Wonders of the World – in Lego

✘ Calling all LEGO fanatics! As part of this year's Science Festival, Scottish Historic Building's Trust are proud to present BRICK WONDERS, the latest creation from renowned LEGO artist Warren Elsmore. In recent years, Elsmore has organised huge events, and has even exhibited displays to VIPs and royalty. Now, he returns to Edinburgh with BRICK WONDERS, a fabulous exhibition featuring LEGO models of the Wonders of the World. Though made entirely from LEGO, these fabulous models are indistinguishable from the real thing!

The exhibition will run from 5-20th April between 10am and 4pm at Riddle's Court, the 16th century merchant's house in the Old Town. Tickets will be available at the door. Proceeds from the exhibition will go directly to the fundraising appeal to help save Riddle's Court, Edinburgh's very own architectural wonder.

Warren will also be at Riddle's Court on the evenings of 9th, 10th, 16th and 17th of April at 6.30pm to give fun and informative talks. Tickets for the talks should be purchased in advance.

For all enquiries relating to the exhibition or talks please email brickwonders@shbt.org.uk or call 0131 220 1232.
