

# Showing EdinburghReportage

off

EdinburghReportage is the place we gather our user generated content, which means that it is where we need help from you!

You can upload your photos or videos, or simply write your own thoughts on the topics that we have suggested. There is a brief sign in procedure but after that you can use your phone or computer to add content to the storyboards. You can also offer your own storyboard topics to us too.

[There is information here](#) about what using [EdinburghReportage](#) involves.

To give you an idea of what it looks like here is our latest storyboard full of autumn colours.

[Gallery will load here shortly...](#)

We will use the storyboards on The Edinburgh Reporter to bring you news on a variety of topics.

What would you like us to gather news about? It could be a project to collect as many photos of one place or subject – or it could be a call to action about something you want something done about!

[The EdinburghReportage site](#) is built on the same software used by [GuardianWitness](#). The lovely people at [n0tice](#) offered it to us to use and we would love you to help us out.
