

# David Gray back at Hibs' Training Centre after operation

Vice-captain David Gray returns to the Hibs' Training Centre today after having an operation to solve his groin injury on Monday.

The 26-year-old former Manchester United right-back has become a firm favourite with the Hibs' fans since arriving at Easter Road in the summer.

He has even managed to score three goals, his first in senior football, including a stunner against Rangers last month.

Yesterday Gray told the club website: "I spoke to the surgeon after the operation and he was satisfied with how it all went and, apart from a bit of soreness and achiness, it feels good.

"I'm back at the Training Centre on Thursday where the hard work will start – beginning with some stretching and light rehab work.

"Hopefully it will all be pain-free because the pain dictates how much work I can do, but I'm looking forward to cracking on with it and getting back as soon as possible."
