

Pilton Equalities Project summer fayre – book your table now

Don't know what PEP is?

Pilton Equalities Project is situated in the community of North Edinburgh.

They provide day-care services which measurably reduce the isolation of older and other vulnerable adults. These services include five local day-care clubs, a four day mental health provision and a weekend resource for isolated individuals. They enable people to participate in activities that they would not normally have access to: literacy, ICT provision, home-care services & volunteering. PEP also operates a comprehensive community transport service.
