

Flybe's Farecracker launches today

Flybe, Europe's largest regional airline, has today launched a new customer initiative called Flybe FareCracker. Each month, Flybe will offer customers a five-day window of opportunity to buy low-cost fares for upcoming flights, a list of which is easily accessed via the special FareCracker icon at www.flybe.com. Deals can be found quickly and easily as available FareCracker fares are clearly highlighted.

The first FareCracker deals are on sale now featuring thousands of seats on routes across the airline's extensive network. Seats are available for booking through to 5th October, and will be effective for travel between 3rd November and 1st December, 2015.

Promoted on Flybe.com and selected digital channels, FareCracker is specifically targeted at those leisure travellers who have the freedom to fly off-peak during the week and by those planning last minute weekend getaways.

FareCracker deals are only available on Just Fly tickets; hold luggage and specific seat allocation can be purchased to supplement this ticket type if needed.

Full details and terms and conditions of FareCracker are available at www.flybe.com
