

School closures – council will have a plan by Monday

✘ 17 schools will remain closed on Monday after the Easter holidays. All schools were included in the 2003 PPPI deal, and were either built or refurbished at that time.

The closures come after works to repair major storm damage to Oxgangs Primary School revealed potential problems.

The City of Edinburgh Council have a page [here](#) which they say they will update with alternative plans for all the children involved. Detailed structural surveys will be carried out this week and the council says that some schools may open earlier as these are completed.

Council Leader Andrew Burns told the BBC this morning that he had no option but to close the schools as he only learned of the problems late on Friday. [Read more here](#)
