

Scottish Greens launch their 2016 manifesto

 Co-conveners of the Scottish Greens, Patrick Harvie and Maggie Chapman both attended the launch of the Scottish Green Party manifesto at Surgeons Hall this morning.

Their mantra is that **Scotland Can.**

They envisage a country with over 200,000 new jobs, good homes for all and power in the communities.

They plan to create the jobs in sustainable industries, particularly supporting Scotland's energy industries sparking a major move to renewable energy generation. They also advocate fair pay and opportunities for cooperative enterprise.

You can peruse the detail of this and their other policies here:
