

Social media tips – How do you find a tweet from a year ago?

Yes, we are big Twitter users with over 41,000 followers and we probably spend too much time there. But we hope you will like this tip which could save you time.

☒ If you read as many tweets as we do then you may sometimes have difficulty finding a tweet again – or even remember who actually tweeted something in the first place!

You can use this page [here](#) to do your search and find the tweet that until then was just a vague memory.

Just put in as many details as you can and bingo! Twitter will search its archives to find what you or anyone else tweeted on a specific date or including specific words or hashtags.

Here was just one of our Tweets on 13 May last year!

Wednesday in Edinburgh – what's on today
