

#SP16 Toni Giugliano Edinburgh Western

Toni Giugliano says he wants to represent the various areas of the constituency. He explains: “I work in mental health at the moment and I am witnessing the effects of welfare reform and the impact of Tory austerity on people across the country.

“I want to be able to bring the experience to the fore of why we need a better system and why the UK Government is failing so many people at present with the welfare changes it is implementing.

“I was born in Italy I came to Scotland when I was seven years old and have lived in Edinburgh for most of my life. I worked in the Scottish Parliament for four years on matters directly connected to Edinburgh Western helping communities and people here. I would argue that nobody else knows the range of issues that affects this area better than me from transport issues in Queensferry to broadband in Corstorphine.
