

Peffer Paints bought over

Peffer Paints has changed hands and is now one by PPG.

Peffer's four stores across Edinburgh, Livingston and Galashiels have been added to the Johnstone's national store network, which will number over 200 by the end of 2016.

Vincent O'Sullivan, Sales Director of PPG UK and Ireland, welcomed the acquisition. He said: "As a company we are always looking for opportunities to extend distribution and our branch network, we firmly believe that Peffer Paints is a perfect fit for us. We're delighted to be growing our presence in Edinburgh. We're especially looking forward to welcoming our new colleagues of Peffer Paints into our business because their knowledge and experience will be invaluable as we look to continue our growth".

Peffer's existing customers will continue to benefit from a great product selection and excellent customer service but now will also have access to the benefits and distribution delivered through their national network of Johnstone's decorating centres. This will include popular promotional activities such as Bonanza Sale events and the Big Red Rewards loyalty programme, supported by extensive TV and radio advertising.

Commenting on the purchase, David McEwan said: "Having stocked Johnstone's products, and worked with PPG for over 25 years, they're a highly trusted and respected name in the industry. Their passion for all things painting and decorating is clear to see. We're so pleased to be leaving the business in such good hands"
