

Hibs announce details of 'Away Season Ticket' scheme

Hibs have announced the details of the away season ticket scheme, which will be implemented in time for the first away league match of the season against Falkirk.

Supporters signing up for an away season ticket are committing to purchasing a ticket for every away match in the Ladbrokes Championship, Irn Bru Challenge Cup, Betfred League Cup and William Hill Scottish Cup. Money will be automatically debited shortly before the match tickets go on sale, normally around two weeks before the match.

The number of away season ticket holders will be capped at 350, which is half of Hibs' smallest league allocation of away tickets (Dumbarton). This means that tickets should be available for every match to supporters who do not wish to take part in the away season ticket scheme, with season ticket holders given a priority window where demand is expected to exceed supply of tickets.

Away season tickets will be available at the Hibernian Ticket Office, by phoning 0844 844 1875 option 2 or by e-mailing the form below to tickets@hibernianfc.co.uk.

Supporters looking to buy away season tickets in groups are advised to complete only one application. Hibs are not able to facilitate individual away season ticket holders sitting together for each match. If the tickets are purchased through one application the tickets will be allocated together.

The away season ticket will be on sale as follows:

10am Wednesday 27 July: 500+ loyalty points

10am Friday 29 July: all home season ticket holders

The loyalty points scheme will be disbanded after the introduction of this scheme and the club do not anticipate using it again. They have been used in this instance as a mechanism for selling the away season ticket scheme only and will not be used for the sales arrangements for the Falkirk game.

Away season tickets will only be available for purchase until 5pm on Thursday 4 August.
