

Enchanted Forest from above

More fabulous drone footage from acclaimed drone photographers [Airborne Lens](#) was released earlier which will perhaps make you think of going to Pitlochry to see the Enchanted Forest.

Of course your feet will be firmly on the ground....

Having a walk in the woods after dark is possibly not something you would normally think of, but the woods will be lit up from this evening 29 September 2016 until 30 October 2016.

The Enchanted Forest is once more headed up by the multi-award-winning creative team of Derek Allan as producer and creative director, Kate Bonney and Simon Hayes as lighting designers, and RJ McConnell and Jon Beales providing sound design and composition.

Some shows are already sold out so do book online. For more information and to book tickets visit www.enchantedforest.org.uk.
