

# Our advent calendar – Christmas Gift suggestion #18

✖ What could be more appropriate for the Mac and iPhone lover than a pre-paid card loaded up with cash which allows the recipient to buy Apps or music from the iTunes store

You can send the card by [post](#) or by [email](#).

I love apps and yes I would use one of these cards.... hint hint!

Top Tip: My favourite app of the moment is probably QUIK which is free on iPhone and Google Play but there are many others which do cost a small amount to purchase!
