Remember to check the new ScotRail timetables

×

The ScotRail Alliance's new timetable started today and the train operator asks that you take a minute to check your journeys before travelling.

The winter 16/17 timetable has a number of small changes to train times and services across Scotland, as the operator continues its drive to improve performance.

A spokeswoman said, "Some trains may depart a few minutes earlier or later than they presently do. Commuters in particular should check ahead, before Monday morning comes around."

Customers can check train times at <u>scotrail.co.uk</u> and on the ScotRail app. Timetables can also be downloaded from the ScotRail website, and hard copies of the new timetable are available from all staffed stations.
