

Edinburgh Airport announces further growth on last year

Edinburgh Airport has told us they are very pleased with the latest passenger figures showing that 781,753 passengers passed through the airport in January 2017.

This represents an 11.7% increase on January 2016 with the greatest growth area being passengers on international flights which had an 11.6% hike compared to the same month last year.

Gordon Dewar, Edinburgh Airport's Chief Executive, said: "After a record-breaking 2016, it is fantastic that we start 2017 with strong figures."

"We are now seeing the impact of launching 27 international services in 2016. An 11.7% growth in figures on this time last year, makes it the busiest January ever for Edinburgh Airport."
