

# PetStay Edinburgh now open

Alice King(23) has officially started her new business venture today.

Alice told us: “I have taken on a franchise and I am introducing it to the Edinburgh area. The company is called PetStay Edinburgh, East and South Lothian. The business is an alternative option to sending your dog to kennels.

“I will build up a team of carers, who will care for customer dogs in their own homes. This is a fully licensed and insured business which is one of very few in Edinburgh of its kind.”

It is an exciting new venture for the young entrepreneur and you can find out more information [here](#).
