

A New Civilization Begins – film screening

We are at a turning point in our history as a human family. At this crucial time we face an ultimate choice and the unique opportunity to reverse the damage we are doing to our planet and ourselves.

A growing number of people are now beginning to sense and awaken to the task of global transformation. This process is potentized by the work and presence among us of Maitreya, the World Teacher, who is now being interviewed on international television.

As Maitreya begins his open public mission there is an unprecedented number of UFO sightings, Crop Circles and other spectacular phenomena. These are signs of the 'Gathering of the Forces of Light', whose great work relates to the uplifting of humanity and the rescue and restoration of our unbalanced planet Earth. Together we will build a new civilization based on Sharing, Justice and Peace.

"Sharing and Justice, Brotherhood and Freedom are not new concepts. From the dawn of time mankind has linked his aspiration to these beckoning stars. Now, my Friends, shall we anchor them in the world."
