

# Council calls for more discussion on new Victoria Primary School

✖ The City of Edinburgh Council has in principle approved the scheme for the relocation and expansion of Victoria Primary School, but agree they will consult with parents on some of the detail.

It comes following a deputation at today's full council meeting by concerned members of the Victoria Primary School parent council.

Councillors will now speak with the parents as a result of the deputation, during which the parents were adamant that the new school had to be future proofed.

The parent council also raised concerns about the traffic and narrow road layout on the new site which could affect the new site. The parents said they have already had traffic problems and don't want to repeat this in future.

The current school is under pressure due to the nearby large housing development planned. If completed the new houses would result in an influx of pupils going to Victoria Primary. The school has already outgrown the temporary classrooms added in the playground and more will be installed before the next school year begins.

The new administration plans 10 new primary schools in the next five years.

Councillor Ian Perry, Education Convener for The City of Edinburgh Council, said: "The significant housing development planned for south east Edinburgh means we will need a new primary school in the area because of expected accommodation

pressures.

"Similarly Victoria Primary School will soon outgrow its current site and the new location at Western Harbour is ideal particularly with so many of the new pupils coming from that area.

"I would like to thank everyone who took part in both statutory consultations as the feedback from our school communities has helped us shape these proposals. I have also given a commitment today saying we will continue to consult with parents as we move forward."

The council report made these recommendations :

1.1 Approve that the proposal to relocate Victoria Primary School to a new building in the Western Harbour is progressed.

1.2 Approve that the changes to the Trinity and Victoria Primary School catchment boundary outlined in the statutory consultation paper are implemented in the November prior to the new building opening.

1.3 Approve that, with immediate effect, the catchment areas of Victoria Primary School, Holy Cross RC Primary School, Trinity Academy and St Thomas of Aquin's RC High School be extended as set out in the consultation paper to include the entire Western Harbour area.

1.4 Note that Council Officers will continue to provide support to community groups wishing to consider community ownership of the existing Victoria Primary School building through the Community Asset Transfer process.

1.5 Note the intention to progress, with immediate effect, the transfer of ownership of the proposed school site from Forth Ports to the Council and to undertake the necessary survey works on that site.

1.6 Note that the provision of temporary classrooms on the Victoria Primary School site may be required from August 2018 until such time as the new building becomes operational.

1.7 Note that should funding not be identified during the 2018-19 budget setting process, the delivery date for the new building would be delayed beyond August 2020 which will

require that the temporary measures put in place at Victoria Primary School be extended pending the opening of the new school.
