

Craigmount High School holding employability event on Tuesday

Career Conversation invitation

Working with Skills Development Scotland, Craigmount High School is holding an employability and creativity event in the North West Locality on 6 June 2017.

The event is for all schools and communities in the North West.

The Career Conversation is aimed at young people, parents/carers, employers, school staff and practitioners and will explore careers, employability, and the increasing importance of creativity skills for young people and for Scotland's future economic success.

The evening will follow the well-established, highly interactive and engaging 'Creative Conversation' format and will include presentations and a panel discussion to facilitate dialogue between parents/carers, schools and colleges and employers.
