

Rachel Alice Johnson, single release... (and a shiver runs through it!)

I Won't Remember You.

Lothian lotharios look out – you are about to confront your nemesis! Pop vox, femme fatale, Rachel Alice Johnson, is on the prowl yet again, casting her sonic juices far and wide.

If you doubting dudes don't dig this incandescent danger-damsel this time round then you just don't deserve the ears you were born with.

Frighteningly recommended listening...
