

Have your say on the management plan for Calton Hill

The draft Management Plan was commissioned by Edinburgh World Heritage on behalf of the Calton Hill Management Steering Group to direct the future management and maintenance of the public park and the buildings and features within it.

The plan assesses the current condition and management arrangements at Calton Hill, presents a vision and strategy to address current requirements, along with a review of management roles and responsibilities.

The contents of this plan have been drawn up from a series of stakeholder workshops made up of representatives from different service areas within City of Edinburgh Council, Edinburgh World Heritage, the Collective Gallery and from local residents associations.

Your feedback will be used to inform any changes to the draft plan prior to it being presented for approval to City of Edinburgh Council Committee on Thursday 15 March 2018.
