Become a Leith Community Crofter

Leith Community Crops in Pots is recruiting for new members to join their community croft area.

New members will be accepted in order of application. Crofter membership could mean that you save money, eat better, expand your circle of friends and perhaps also help the environment.

Crops in Pots say on their website: “You will have access to all essential gardening tools and a water supply. We also have a small community cafe which will be open on a more regular basis in 2018 and crofters will be entitled to generous discounts of hot beverages & food to keep you going on cultivating your croft.”

Full details on how to join or how to buy a gift membership is [here](#)
