Available for a limited time, tours will operate during festival time on board one of the company's recently refurbished vintage Routemaster buses. They will feature a live guide providing a wealth of knowledge on the local area, and will take in various picturesque locations around Edinburgh including Braid Hills, Colinton Village, Fettes College, Newhaven Harbour and Portobello Beach. The tour offers customers many photo opportunities along the route.

Kenny Campbell, General Manager, Edinburgh Bus Tours said: "August is an extremely busy period for our city. We have designed our 20 days of summer tour to offer a short escape for residents and visitors during the festival. Operating for a limited time only, this tour will take customers to see some of the most breathtaking views of our city's landscape from the comfort of an iconic vintage Routemaster. We are sure it

will be a very popular addition to our tour offering.”
