## **#KeepOctoberFree – Edinburgh Leisure launches September Campaign**

Edinburgh Leisure has unveiled their September offer, designed to help thousands of new customers to try new activities and get more active this autumn.

Weight training is only one of the activities on offer

With recent research highlighting the dangers of inactivity, the not-for-profit company, which manages City of Edinburgh's Council leisure services is offering new members joining in September, a free month in October.

With 30+ venues including 9 swimming pools, 14 gyms and 700+ fitness classes per week, Edinburgh Leisure is the 'biggest club in town' providing the widest range of fitness classes, state of the art facilities and community based programmes across the capital, creating opportunities for everyone to get active, stay active and achieve more.

Graeme Renwick, Marketing Officer at Edinburgh Leisure said: "We're passionate about providing opportunities and support for people to participate in physical activities and sport, whatever their age and stage.

"And for those joining in September, they're going to be so busy with all the wonderful facilities that Edinburgh Leisure has on offer across the city centre that we're urging them to keep October free, as well as giving them that month for free."

From 31 August, new joiners will get one month free (October) when they join before the end of September. Existing members who refer a friend, who then joins, will receive £30 cash back.

With adult memberships starting from as little as £29.90, there is a range of packages, including swim, fitness, gym and climbing.

Edinburgh Leisure gyms have the latest state of the art equipment including some of the newest cardiovascular machines; offer over 750 fitness classes per week including Les Mills Programmes; and have five modernised Victorian pools and the Royal Commonwealth Pool in their portfolio. They also launched Clip 'n Climb at Edinburgh's International Climbing Centre at Ratho, the first of its kind in Scotland in March

2016.
