

# Hendricks pop up phone box on Castle Street today

To celebrate the launch of their first ever limited edition gin variant, Midsummer Solstice, Hendrick's is hosting a pop up sensorial phone box portal at CASTLE STREET, today.

They have transformed the first 'conduit of connection' to a sensorial experience to launch their new gin. But you have to be curious and tear yourself away from being constantly connected and on your phone!

The experience is open to the public from 12pm – 7pm.
