

Mother's Day idea – a balloon flight

UP UP AND AWAY with Webster Adventures – test flight over Loch Leven captures an amazing landscape

Kinross based Webster Adventures has kicked off its 2019 season in style with a test flight over Loch Leven.

A fabulous opportunity to take aerial photos. The flight, in calm and serene conditions last week, made the very most of the mild weather, capturing stunning images of Loch Leven from the air.

Hot air ballooning gift experiences from Webster Adventures are priced from just £130 per person for weekday flights. The company is now Scotland's premier provider of this service, flying its distinctive orange "Cameron" balloon on a variety of fascinating itineraries, with take-off from Perth & Kinross.

Included in the experience is champagne and a flight certificate.

"We are delighted to be operating another season with Webster Adventures," said Managing Director and keen ballooning enthusiast, Daniel Webster. "It's an ideal gift for a loved one, and we have Mother's Day coming up soon."

"We are sure any mum would love to see Scotland from the air, it's a brilliant experience. We're the only ballooning operator that will take a single couple up too, as most other firms will want to include more passengers. So, if you're

planning a romantic proposal, you'll have a very intimate experience!"
