

# **Speedway – build-up to season speeds-up**

**Edinburgh Monarchs host working parties on Saturday and Sunday at Armadale from 9.30am to 2pm.**

The main tasks are painting and gardening and all tools and materials are supplied.

They are also looking to recruit a plumber and electrician for two big projects.

Glasgow Tigers are looking for a trainee machine examiner and a trainee pits marshall.

The roles are voluntary and anybody interested does not need to have specific knowledge of speedway bikes.

A DIY/mechanical knowledge is a benefit and applicants would attend each meeting approximately three hours ahead of the start time and be there until after the second-half has finished. Generally this involves up to seven hours of a person's time.
