

Hibs announce new season ticket finance partner

Hibs have announced a new finance partner, allowing supporters the opportunity to spread the cost of their season ticket.

Following last week's news regarding Zebra Finance, the club have made similar arrangements with V12 Retail Finance.

The club are in the final stages of set-up with both V12 and Ticketmaster, and expect the payment plan option to be available to supporters early next week.

As a result the Early Bird deadline, originally scheduled for Friday 12 April, will be extended.

This includes the opportunity to purchase at discounted prices as well as using the payment plan option. A new date for the deadline will be announced when the payment plan option is live.

Supporters are reminded that if they completed the application

process with Zebra Finance and received a successful confirmation email, they will not be affected and should continue with payments as normal.
