

Launch of THELMA FM – new Leith based internet radio station

On 7 June 2019 The Living Memory Association will launch their brand new internet radio station THELMA FM, playing records and reminiscence, in conjunction with an exhibition at Ocean Terminal centred around the history of radio. Local MP Deirdre Brock will be in attendance at The Little Shop of Memory to celebrate the beginning of our new venture.

Over the years The Living Memory Association has gathered hundreds of hours of interviews with magical stories from the 1920s to the 1970s and these will play in a loop on our station alongside live shows which will feature our wonderful collection of donated vinyl (mainly 78s) which we have been give since the opening in 1986.

The station can be found streaming at the following link...
