

Spifox help North Edinburgh Arts refurbish their café

The Chair of the Spifox Foundation, Andy Clark, Trustee Ronnie Urquhart, and three other Trustees visited North Edinburgh Arts last week to officially launch the refurbished NEA café made possible by a generous grant from the Spifox Foundation.

Welcomed by NEA Chair Lesley Hinds, and NEA Board members, the Trustees will have a tour of the venue and garden before cutting a celebratory cake and putting the inaugural handprints on the NEA supporters wall.

Spifox was first launched in 1983 by a group of property and construction professionals who organised the first Christmas Carol Concert followed by a charity lunch which raised the sum

of £3,000 for the RSPCC. Since launching and through to January 2019 it has raised, and donated, over £4.5m and has become a name synonymous within the Scottish Property Industry. The sole objective of Spifox is to raise funds during the business year for disadvantaged children and young people in Scotland, enabling the purchase of equipment and the provision of facilities to assist their beneficiaries in better performing their function of care and support. All monies raised are donated directly to the chosen beneficiaries without deduction of admin or other overheads.

At the Christmas Carol Concert and Lunch 2018 monies raised exceeded £330,000 – a truly awesome result! These monies benefitted the 3 principal beneficiaries, namely Team Jak, North Edinburgh Arts and Ronald McDonald House Charities. Additionally, the fabulous total will allow Spifox to make a significant number of small donations to less well known, but equally deserving, Charities.

Full details of the Spifox Foundation can be found at <http://www.spifox.co.uk> and for North Edinburgh Arts at <http://www.northedinburgharts.co.uk>
