

Kylie at the Castle

Kylie is the second act to grace the Castle stage this summer. Here she is 'giein' it laldy' up on the Esplanade.

She performed songs from her back catalogue as well as singles like Stop Me From Falling and Dancing from the latest album, Golden which went straight in at number 1 and was the bestselling release last year by an international female artist.

The singer is here for a two night stay and will be back tomorrow night for more. Then she is off to Scarborough on 1 August where she will perform another open air concert.

There are [some tickets left...](#)
