

# webster developments celebrating new house building contracts

Contracting company, webster developments in Kinross, has announced that it has won its latest contract from Caledonia Housing Association in Perth.

The £1.1 million development for Caledonia HA, commissions webster developments to create six new build, one bedroom apartments, plus a renovation of an existing building to create another apartment, on the site at Crieff Road, Perth. All of these homes will be available for affordable rent by Caledonia Housing Association.

Webster have worked for Caledonia Housing Association before, in 2017, constructing five new build flats on what was an old garage lock up site at Wester Loan, in Milnathort.

Commenting on this latest contract gain, Daniel Webster said: “We’re delighted to win another prestigious contract from Caledonia Housing Association, which now becomes our largest to date. Private and public sector work in Perth & Kinross is where it all began for us, although, increasingly, we are working all over Scotland with contracts stretching as far as the Isle of Skye. We are keen to win more Housing Association work and believe we can already demonstrate a solid track record delivering for this sector on time and on budget.”

“This will consolidate our relationship with Caledonia

further, and we can't wait to get started on the development, which has an estimated completion time of spring 2020. We excel at new build, as we contract for our own Private Housing division, Webster Homes, but we are also adept at giving old buildings a new use."

Andrew Kilpatrick, Director of Assets at Caledonia Housing Association commented: "We are delighted to be working with local contractor, Webster Developments, on this redevelopment of land on Crieff Road to bring more affordable homes for rent to Perth."
