

Arranging a wedding? Why not get hitched in a barn?

Pictures have just been released of the custom built rustic bistro and wedding barn at Silverwood in Errol which officially opens to the public on Monday 2 September 2019.

With outside terraces on both sides, with seating, the bistro overlooks the estate's picturesque trout lochan.

The traditional log cabin type structure, with its stunning wrought iron style lighting, and eye-catching bar with a wood clad frontage, will host weddings and events, as well as offer breakfasts, lunches and dinners.
