

Edinburgh Short Film Festival 2019

The 2019 Edinburgh Short Film Festival runs from 24 October to 10 November 2019. This is your one chance this year to see one of the strongest short film programmes in the UK.

The organisers are excited to bring a programme of outstanding short cinema, award-winning short films including the 2019 Best Short Cannes and Oscar winners and winners at international film festivals, as well as many other outstanding short films from home and across the globe.

Featuring films ranging from Vietnamese drama and Indian vampire comedy horror to Taiwanese animation, US sci-fi, Scottish thrillers and everything in between.

The Film Festival will include a Best Films night with guest film festival directors from across Europe bringing their best films with a panel discussion following the screening.

There's a night of Texan Shorts and no less than two Animation Sundays, animation from Poland and the Czech Republic as well as lively networking events, Q&A sessions and on top of all that, two late night parties with live music!
