Covid-19 — make your own sing a long poster

We have been told that the best front line defence to Covid-19 is to wash your hands.

So which song are you washing your hands to? How are you encouraging your family or co-workers to wash theirs?

You can make your own poster on a really innovative website here.

(Thank you to the lovely people at <u>The Queen's Hall</u> for flagging this one up....they have lots of concerts on although some have been cancelled. Remember they are a charity and appreciate any donations at all times, but perhaps most especially right now.)

Here's one we made earlier......tell us about your song!
