

Danny Swanson joins East Fife on two-year deal

Former Hibs, Hearts, Dundee United and St Johnstone winger Danny Swanson has joined East Fife on a two-year deal after being freed by the Perth Club.

The Edinburgh born 33-year old joined his boyhood favourites in 2017, becoming one of the few players to have played for both Edinburgh sides, but injuries restricted his appearances for Hibs and he only featured in 19-games, scoring three times.

Despite that he was a popular figure at the club amongst the fans.

After leaving Hibs he returned to St Johnstone for the third time.

In total he has played over 400 games on both sides of the border.

Manager Darren Young said: "Danny signing is a massive coup for the club.

"We have been talking for the a few weeks now amidst interest from full time and other part time clubs but having spoken to some of our current players he was keen to come to Bayview.

"Danny is a Premiership quality winger and brings even more experience and creativity to our team."
