

A holiday home away from home

As staycations continue to be our holidays of choice this summer, a Fife holiday park has spoken of the high demand for its range of holiday homes.

Pettycur Bay Holiday Park at Kinghorn has a wide selection of pre owned and brand new models, from industry leading names, such as Willerby, Carnaby, Atlas & Victory. New models are priced from just £35,990.

The park is notable for being part of a very popular and well established holiday complex, with the lovely views across the Firth of Forth. It has a wide range of leisure facilities, including a pool and soft play centre, together with the Horizons Restaurant and Waterfront Bar. Entertainment shows take place all year, and there is also the four star Bay Hotel, complete with its own fitness suite. The Hotel also hosts many functions and weddings.

“Many people may often have thought about owning their own holiday home on a family run estate like ours, but not got around to doing anything about it,” said Tommy Wallace, one of the Directors of the business. “There has never been a better time than now, with demand for self catering accommodation at an all time high. Owning your own holiday home here mean you will never miss out, and can have as many short or longer breaks throughout the year as you want, as we are open a full twelve months of the year.”

“Our great strength here is our fresh air and wonderful setting. Our owners have full access to all our top class

facilities.”

Kinghorn is just a short distance away from the coastal town of Burntisland which has many attractions for the visitor. There are numerous golf courses in the area, or explore the Fife Coastal Path by foot. The East Neuk of Fife is easily accessible with its charming World Heritage fishing villages and excellent fish and chip shops, as is the golfing mecca of St Andrews. Or opt for a day in Dundee to visit the V&A.

The holiday homes at Pettycur Holiday Park are supplied fully furnished and decorated, and are complete with a high specification to take the concept to a new level. Fully integrated appliances are included in the kitchens. Many of the models have spacious open plan layouts and large windows allowing the light to flood in.
