

Scotland fans can order matchday programme for UEFA EURO 2020 Play-Off Semi-Final

Next month Scotland will be taking on Israel, Slovakia and Czech Republic behind closed doors but supporters will still be able to have a key part of the matchday experience delivered to their home.

Production for the UEFA EURO 2020 Play-Off Semi-Final programme is currently under way and a limited print run will be produced in conjunction with the Scottish FA's programme partners Ignition Sports Media.

To ensure supporters don't miss out on this keepsake from such a crucial match, copies are available from the online Ignition programme shop now for £4 plus £0.99 p+p.

Copies ordered by midnight on Monday 5 October will be mailed the following day by first class post.

Also available are strictly limited print runs of the two Nations League game programmes for the visits of Slovakia and Czech Republic.

Due to the tight turnaround between matches, these will not be available for delivery on or before matchdays.

The Nations League game editions will be smaller in size and are priced £3 plus £0.99 p+p each.

A three match bundle covering the October internationals is also available for £10 with free p+p.

Overseas supporters will also be able to order copies but these will attract extra p+p costs and delivery will not be before matchday.

Programmes can be ordered [here](#)
