

Hockey – Great Britain hockey matches postponed

With the travel constraints governed by the regulations in place in Germany, Belgium and China due to the COVID-19 global health pandemic, the International Hockey Federation (FIH), on request of the travelling teams involved, has decided to postpone the following FIH Hockey Pro League matches:

Great Britain vs Germany (initially planned on 14 and 15 November 2020)

China vs Belgium (initially planned on 23 and 24 January 2021)

FIH will keep on monitoring the evolution of the global health situation closely and define, together with the teams concerned and its broadcast partners, new dates for these matches when it will be possible to do so.
